

INOVEX...

YOUR TURN-KEY SIMULATION SOLUTIONS PARTNER

INOVEX, founded in 1996, is today a pure play Simulation & Training Company with focus on products, solutions and services for Homeland Security, National Defence and selected Industry Domains.

Headquartered in Switzerland, with offices in Baar and Zürich, and world-wide business locations and long-lived international business presence, INOVEX delivers affordable system configurations, latest technology innovations and easy to operate system designs that are fully focused on our clients training aims and objectives.

At the heart of INOVEX's capability is its world-class Team of highly motivated, skilled and qualified talents with unique S&T focussed knowledge, expertise and understanding geared for leading edge simulation & training innovations. Driven by professional integrity and devoted to long-term 24/7 technical & operational advice, assistance and support (on-site if required) we ensure maximum benefits for clients using INOVEX simulation & training assets.

INOVEX offers technology based education and training solutions including:

- eLearning, Virtual-, Live-, Constructive- and blended Simulation Solutions
- Electronic Blanks Solutions (E-Blanks)
- Subject Matter Curriculum and Courseware Development
- Operation and Maintenance Training / Instruction
- On-site Operation and Training Support
- Complete System MRO Services

INOVEX S&T, driven by innovation and fully committed to excellence, is ready to be your partner for any of your simulation & training requirements.
